ACTIVITY PROPOSAL

A.Y 2025 - 2026

I. TITLE OF THE ACTIVITY

WordPress Seminar–Workshop: Fast-Track Your Career in WordPress Dev Support

II. RATIONALE

The rapid growth of digital platforms has significantly increased the demand for skilled professionals in website development and technical support. One of the most widely used content management systems globally is WordPress, powering a substantial portion of modern websites. With this, there is a growing need for individuals who possess not only basic web development knowledge but also the ability to provide technical support and maintenance for WordPress-based systems.

The WordPress Seminar–Workshop: “Fast-Track Your Career in WordPress Dev Support” is designed as an introductory learning session for students with foundational knowledge in website development. The session aims to help participants leverage their existing HTML and PHP skills and transition more effectively into WordPress technical support roles.

This seminar–workshop primarily targets 3rd-year and 4th-year students who already possess basic web development knowledge and are preparing to enter the professional field. It is especially beneficial for aspiring web developers, freelancers, virtual assistants, and students considering careers in technical support, QA, or related IT roles.

By organizing this seminar–workshop, the institution aims to bridge the gap between academic learning and industry expectations. It will provide students with practical career direction, enhance their technical confidence, and open opportunities for immediate employability after graduation.

Ultimately, this initiative supports the goal of preparing students to become competent, industry-ready IT professionals capable of adapting to the evolving demands of the digital workforce.

III. OBJECTIVES

- To introduce students to the fundamentals of WordPress Development Support.
- To demonstrate how basic HTML and PHP skills apply to WordPress technical support roles.
- To provide insights into the responsibilities and real-world tasks of WordPress support professionals.
- To enhance students' confidence in handling technical tickets and troubleshooting WordPress issues.
- To promote effective collaboration between support specialists and developers.
- To present career opportunities and growth paths in WordPress support, including senior support and QA roles.

IV. DATE, TIME, AND VENUE

Activity		
WordPress Seminar–Workshop: Fast-Track Your Career in WordPress Dev Support		
Time	**Date**	**Venue**
8:00 AM - 1:00 PM	March 6, 2026 (Friday)	SA 207 & SA 208

V. PARTICIPANTS OF THE ACTIVITY

- 3rd year and 4th year BSIT Students
- ITE Program Head
- ITE Instructors
- SINCOTECS Officers

VI. RESOURCE REQUIREMENTS

- **Seventy (70) computer units** located in rooms SA 207 and SA 208 must be equipped with a **stable internet connection**.
- An **LCD projector or television screen** shall be provided for use during the event.
- **Air-conditioning** must be operational and maintained throughout the **entire duration of the event**.

VII. GENERAL GUIDELINES

- All students must wear their valid school ID inside the campus and during the assembly.
- Students must arrive on time; attendance checks will be conducted at the start and end of the program.
- Students must follow all instructions from teachers, speakers, and SINCOTECS officers.
- Participants are expected to observe respect, discipline, and proper decorum throughout the assembly.
- Unauthorized noise, disruptions, or unrelated activities inside the classroom are not allowed.
- SINCOTECS reserves the right to address disciplinary concerns in coordination with the ITE Program.

VIII. EXPECTED OUTCOME

- Participants will acquire a clear understanding of the fundamentals of WordPress Development Support, including common issues, troubleshooting techniques, and maintenance practices.
- Students will be able to apply their existing knowledge in HTML and PHP to real-world WordPress technical support tasks.
- Participants will demonstrate improved problem-solving skills in handling technical tickets and resolving WordPress-related concerns.
- Students will gain increased confidence in communicating technical solutions and collaborating with developers and team members.
- Students will identify potential career paths in WordPress support, including entry-level support roles, senior support positions, QA roles, freelancing, and remote work opportunities.
- Students will be better prepared for internships, freelance projects, and entry-level IT roles after graduation.
- The activity will strengthen the alignment between academic preparation and industry expectations, contributing to improved student employability.
